

Apprentice Instructions National Practical 2023

- Assume the floor framing is level
- Think about the building process
- Think ahead for other tasks that are coming up
- Judging. Try and get at least one item of each task done to get some points
- Not to building "Code" (fit for purpose and safe)
- If you require assistance during construction hold hand up only – ie without holding up the plans or instructions.
- Your working space is behind your space and not to the sides
- If you need help with the instructions then hold up the instruction sheet (Dave, Regan or Bill to help).
