CAREER STREAMS GUIDES

WHICH CAREER STREAM IS RIGHT FOR YOU?

Entering or shifting careers in the construction sector? Use this helpful guide to understand the opportunities available – including typical career pathways, what a day in each role looks like, and how to get started. Whether you enjoy problem-solving, working with precision, or coordinating teams, this career path enables you to make a real impact on a safe, healthy and thriving built environment across New Zealand.

Download the Built Environment Career Streams guides and explore the many rewarding pathways in the construction sector.
