

## Apprentice Instructions – Space Ship

### GENERAL

**Follow the drawings at all times**

Assume the floor has been set level.

All plywood to be nailed off at 150mm centres

50x20mm trim at the top of the wall to be nailed off with the 40mm J/H nails

90x45 top and bottom plates are to be 660mm, long point to long point

90x45 to evenly overhang floor

Plywood roof to overhang trim board by 10mm on the pitch

All shapes, except the door, are 300mm down from the top of the wall cladding

The supplied screws are for the roof hips. Two into the top plate and two into the nose of the spaceship

Before starting the roof structure you need to give us a written "Methodology" of how you intend to build the roof structure

The roof panel on the drawing is a "Guide Only"
