New Home and Builder's Own Home Award (if it is a new home)	
Design, Functionality and Style	
<p>Functionality and design</p> <p>The general design must take into consideration the sun and the views from the dwelling. The layout and functionality must follow an easy flow within the dwelling. A clever design will flow from the living areas to the kitchen and give easy access to bathrooms. The kitchen must be well designed and functional. The lighting throughout the home should be both appropriate and adequate.</p> <p>Selection and suitability of products is appropriate to the site conditions and overall design and functionality</p>	/300
<p>Fit to Site/Access/Entrance</p> <p>The dwelling should be orientated to maximise the sun, views and be situated on the most appropriate part of the site, taking into account the topography, vegetation, geology and prevailing weather. This may be difficult on a very tight section, if access is off one road or if there is only one way to the house. The design should make best use of the site for both pedestrian and vehicle access e.g. obvious, safe, well-lit and an attractive entrance to the home.</p>	/150
<p>Aesthetic Appeal/Coherence</p> <p>The dwelling should have aesthetic appeal. The style should complement the design, it could be quirky, original, contemporary or classic. The interior and exterior design of the dwelling must complement each other.</p>	/125
<p>Future proofing</p> <p>Does the dwelling demonstrate sound planning for the future relative to the price category that it is in?</p> <ul style="list-style-type: none"> • Does the dwelling ensure the ongoing maintenance & operating costs are sustainable? • Is the design flexible enough to meet the changing demands of its owners or versatile enough to meet the future needs of subsequent users? • Does the property have good air quality, flow and passive ventilation? 	/125
