

VERTICAL CONSTRUCTION LEADERS GROUP

We are 72 of New Zealand's biggest and best construction companies, led by Master Builders - New Zealand's leading Building and Construction Association.

OUR PURPOSE

The Vertical Construction Leaders Group is focused on supporting a sustainable construction sector, delivering the communities, schools, hospitals and workplaces New Zealanders need.

HOW WE WORK

- Collaborating and sharing best practice across our sector
- Providing an industry voice to better align with Government including the Construction Accord and Infrastructure Commission
- Influencing and challenging industry stakeholders to respond to issues impacting the sector
- Taking action to address systemic issues and achieve a better performing, more sustainable sector

AREAS OF FOCUS

1.

LOOKING AFTER OUR PEOPLE

- Ensuring sustainability of the sector, including its continued attractiveness as an industry to potential employees and consumers
- Standardisation of site-based health and safety policy and procedure, with the aim of generating a step-shift improvement in health and safety performance across the construction industry

2.

CONTRACTING AND PROCUREMENT TO BETTER MANAGE RISK

- Mitigating supply chain issues resulting in delays and increased costs to the sector and consumers
- Improving industry labour shortages and immigration settings

3.

WORKING TOGETHER TO MANAGE MARKET SHOCKS

- Better procurement practices that benefit all parties
- Improving the system for the Engineer to the Contract
- Building more mature Risk Management approaches across the industry
